To: Richard_loury@mied.uscourts.gov

Mr. Loury,

I am writing regarding the docketed filing in United States v. Conrad Rockenhaus, Case No. 2:23-cr-20701. A recently docketed pro se compassionate release submission includes my home address as part of the proposed release plan.

Because of escalating safety concerns connected to materials already filed and publicly accessible on this docket, public display of my home address creates an immediate risk to my safety. I am requesting that the Court immediately restrict public access to the address (redact the street address, or temporarily seal the document pending redaction) as soon as possible.

I understand the Clerk's Office may require a judicial order to alter a docketed entry. If so, please route this request to Chambers immediately as an urgent request for PII redaction. I can file a formal motion for redaction as soon as I am medically able, but I am currently too ill to prepare a motion right now.

Attached is my doctors note documenting my current medical limitations if needed.

Thank you for your immediate action,

Adrienne Rockenhaus
