Subject: Actual Notice of Imminent Medical Abandonment of Disabled Veteran on Senator Slotkin's Watch (March 2)

Fladiana Lopez, Gina Shireman, and the Chief of Staff for Senator Slotkin:

On January 6, 2026, I wrote to you explicitly stating that the BOP document you attached to close my constituent inquiry was a "verifiable lie" and a "bureaucratic fiction." I warned you that by closing the inquiry, you were choosing to accept sanitized lies while a disabled veteran seized to death in slow, excruciating agony.

Because you chose to accept their bureaucratic fiction, the Bureau of Prisons has spent the last months chemically lobotomizing my husband, Conrad Rockenhaus, with contraindicated Zyprexa to hide the severe traumatic brain injury inflicted upon him by federal agents.

I am placing Senator Slotkin's office on final, formal notice: The federal clock runs out at exactly 8:00 AM on Monday, March 2.

Because I have secured a Wayne County ex parte PPO legally barring him from my residence, and because the government closed his bank account, leaving him indigent, he is legally and technically homeless. If the Bureau of Prisons dumps a seizing, medically collapsing 100% disabled combat veteran onto the pavement at 8:00 AM without a direct bed-to-bed transfer to the VA, I will ensure the fallout is entirely public.

The local press in Southeast Michigan will be fully briefed and provided with the forensic receipts proving that this catastrophic medical abandonment happened "on Senator Slotkin's watch," and that her caseworkers actively facilitated the cover-up by ignoring undeniable evidence of his torture and slow murder.

Govern yourselves accordingly.
