Subject: Urgent VJO Support Request: Conrad Rockenhaus, Disabled Veteran

Dear Ms. Wright,

My name is Adrienne Rockenhaus, and I am writing to you on behalf of my husband, Conrad Rockenhaus, to request your immediate assistance.

Conrad is a medically retired U.S. veteran with a 100% disability rating from the VA for a combat-related Traumatic Brain Injury (TBI) and severe PTSD. He is currently on federal supervised release for a non-violent computer hacking conviction (CFAA).

We are in a crisis. Conrad has been subjected to a pattern of escalating harassment and retaliation by his U.S. Probation Officer. This has culminated in a new, false arrest warrant being issued against him on August 20th. We have requested a Federal Public Defender, but as of today, one has not yet been formally appointed, leaving him without representation for this warrant. We are in desperate need of a VJO specialist to advocate for him within the system.

We are respectfully requesting your help to:

Act as a formal liaison between Conrad and the U.S. Probation Office and the federal court.

Help communicate the realities of his combat-TBI and medical needs to the court.

Advocate for the removal of the impossible full time work condition from his supervised release, which contradicts his official 100% VA and Social Security disability status.

Ensure that his status as a disabled veteran is properly considered by the justice system.

We have a comprehensive timeline of events and all supporting documentation. We are available to speak with you at your earliest convenience.

Thank you for your service to veterans. We look forward to hearing from you.

Sincerely,

Adrienne Rockenhaus

Subject: Acute Medical Crisis - Veteran Conrad Rockenhaus - Livingston County Jail

Dear Mr. Wright,

My name is Adrienne Rockenhaus, and I am the wife of Conrad Rockenhaus, the veteran you visited today at the Livingston County Jail. Thank you again for your intervention.

I am writing with an urgent and credible concern for my husband's immediate safety.

Since the head injury he sustained on September 4th, his neurological and psychological state has been declining. Following a sham medical check this morning where he was clearly disoriented to time and place, his behavior has become increasingly erratic.

In a series of phone calls over the last hour, he has become acutely agitated and is exhibiting severe emotional dysregulation. Based on my knowledge of his combat-related TBI and his current erratic behavior, it is clear he is in an acute medical and psychological crisis and is not safe. His condition is rapidly deteriorating.

These calls are taking a severe toll, and for my own ability to continue this legal battle, I must temporarily disengage from them. However, I cannot do so without a safety net in place for him.

He requires immediate medical intervention. I am formally asking for your help. Can you please make contact with the jail to advocate for his immediate safety and for him to receive an urgent and comprehensive medical evaluation? I believe a call from the VA will be taken more seriously than my own.

Thank you for your urgent attention to this matter.

Sincerely,

Adrienne Rockenhaus

Subject: Significant Public Engagement Regarding Conrad Rockenhaus

Dear Ms. Michalski and Mr. Wright,

I am writing to provide a critical update regarding the case of Conrad Rockenhaus and to thank you both for your ongoing efforts on his behalf.

In an effort to bring public awareness to the ongoing medical and constitutional crises, we posted a detailed, evidence-backed summary of Conrad's situation to Reddit's official Tor community (r/TOR).

The public response has been overwhelming and immediate. In just over 24 hours, the post became the #1 topic on the subreddit and has garnered nearly 300,000 views and thousands of supportive comments expressing outrage at the treatment of a disabled veteran by federal and county officials.

This indicates a significant and rapidly growing public interest in this case. We wanted to ensure you were aware of this development and had the direct link to the post to see the public's perception for yourselves:

https://www.reddit.com/r/TOR/comments/1ni5drm/the_fbi_couldnt_get_my_husband_to_decrypt_his_tor/

We hope this massive display of public support can be a useful tool in your advocacy on Conrad's behalf to underscore the urgency of the situation.

Thank you for your time and continued attention to this urgent matter.

Sincerely,

Adrienne Rockenhaus

Subject: URGENT: Livingston County Jail Actively Obstructing VA and Congressional Communication with Veteran Conrad Rockenhaus

Mr. Wright and Ms. Michalski,

This is an urgent update regarding my husband, Conrad Rockenhaus.

Mr. Wright, thank you for your call yesterday. I understand you require a signed release from Conrad to speak with me directly about him. Conrad submitted a formal request to sign that release form at the jail yesterday.

We have now learned that immediately following this request, the Livingston County Jail has removed him from their public inmate roster. His current location is unknown, and this has made it impossible for him to sign the necessary paperwork to communicate with his official VA advocate.

This appears to be a deliberate act of obstruction by the jail to prevent a disabled veteran from communicating with the Department of Veterans Affairs and, by extension, with Senator Slotkin's office. They are actively severing his lines of support in the midst of a medical crisis.

We urgently request that you use your official capacities to not only locate Conrad but also to intervene and address this direct obstruction of your duties by the Livingston County Jail. He must be allowed to sign the required release form immediately, wherever he is being held.

Thank you for your immediate attention to this escalating crisis.

Sincerely,
Adrienne Rockenhaus

Subject: Constituent's Bank Account Seized/Disappeared by Federal Agency in Retaliation for Protected Speech - Request for Immediate Congressional Intervention

Dear Ms. Michalski,

I am writing to you under the most urgent and dire circumstances. I am a constituent of Senator Slotkin and the wife of Conrad Rockenhaus, the disabled veteran on whose behalf your office has been assisting.

Today, in a severe and shocking escalation, the federal government has executed an extra-judicial seizure of my family's finances. My bank account with SoFi has disappeared. When I log in, the system states that no account exists. It contains all of our funds, including my husband's VA and Social Security disability payments and my own personal trust payments. We now have no access to any money.

I have been on the phone with the bank for hours. Their representatives claim to have no record of my account and have twice disconnected my call when I was escalated to their "security team." This appears to be an illegal asset seizure, likely executed via a National Security Letter with a gag order, in direct retaliation for my successful public campaign exposing the misconduct of federal officers in my husband's case.

This is no longer just about the malicious prosecution of my husband. This is a direct financial attack by a federal agency to silence a private citizen for exercising her First Amendment rights. They have disappeared my husband from the jail system, and now they have disappeared my family's ability to survive.

This is a constitutional crisis and a profound abuse of power. I urgently request that Senator Slotkin's office launch an immediate congressional inquiry into this illegal asset seizure. We need you to demand answers from the Department of the Treasury and the FBI, and to intervene to have these funds restored.

We are now in a dire emergency. Any help you can provide is critical.

Sincerely,
Adrienne Rockenhaus

Subject: Life-Threatening Medical Crisis for Veteran Conrad Rockenhaus at FCI Milan

Dear Ms. Michalski and Ms. Wright,

Thank you again for your office's prior assistance in my husband's case. I am writing to provide a critical follow-up to my email from Wednesday, September 17th, regarding the closure of our bank account.

The situation has escalated into a direct, life-threatening medical emergency.

First, we have confirmed that Conrad has been transferred and is now in the custody of the federal Bureau of Prisons at FCI Milan.

Yesterday, September 18th, Conrad was seen by a BOP doctor. I have since spoken with him by phone and learned the devastating outcome of that visit. Instead of providing treatment for the severe head injury he sustained on September 4th, the doctor has officially reduced the dosage of Conrad's life-sustaining seizure medication, as well as other medications. This action constitutes active medical endangerment, placing him in imminent and extreme danger of suffering further seizures, which could result in irreparable harm or death.

This is happening amidst a broader campaign of retaliation at the facility. Conrad has reported ongoing staff harassment, his inmate email account has been disabled for "security reasons" to cut off communication, and on the morning of September 19th, he received a direct, unsolicited phone call from an individual identifying as a "government agent" in a clear act of witness tampering.

To address this crisis, I filed an Emergency Petition for a Writ of Habeas Corpus (Case 2:25-cv-12913) with the federal court. We have since filed multiple supplemental declarations, including the one detailing this medical malpractice, to put the court on notice. However, as of this afternoon, the court has taken no action, and Conrad is now facing another weekend without any judicial or medical intervention. His condition continues to deteriorate and I fear the worst.

We urgently request that your offices make an immediate inquiry with the federal Bureau of Prisons regarding the deliberate and life-threatening medical malpractice occurring with Conrad Rockenhaus (Reg. No. 39400-480) at FCI Milan. His life is in danger.

For your reference, I have attached a copy of the Emergency Writ of Habeas Corpus and the supplemental declarations that have been filed with the court.

Thank you for your immediate attention to this grave matter.

Sincerely,

Adrienne Rockenhaus

Subject: Urgent: Lethal dose of medicine given to my husband in prison

I will be writing a sworn declaration stating the Federal Bureau of Prisons at FCI Milan just attempted to murder my disabled veteran husband, Conrad Rockenhaus (Reg# 39400-480), by giving him a potentially lethal dose of Metformin. This comes after they reduced his seizure meds. The court is closed for the weekend.

There is a "security hold" on his TRULINCS account. This blocks him from using the official BOP email system to file a grievance or notify anyone. This is not a glitch; it is an active cover-up of an attempted murder.

Please. We desperately need your help.

Subject: URGENT - Formal Notice of Torture & Life-Threatening Assault on Disabled Veteran Conrad Rockenhaus

Katy and Jamie,

I am writing to you again because I have nowhere else to turn, and my husband, disabled combat veteran Conrad Rockenhaus (Reg# 39400-480), is being systematically tortured in federal custody at FCI Milan, and I am being forced to listen to it happen.

The system is silent. The court is silent. And in that silence, federal employees are actively trying to kill him.

On Friday, September 19th, staff at FCI Milan attempted to administer a potentially lethal overdose of medication to Conrad. His life was saved only because he recognized the danger himself. I have filed a sworn declaration with the federal court detailing this. The court has not responded. AUSA Corinne Lambert's office received a copy this morning at 10:01 AM. She has done nothing.

This is the culmination of a campaign of deliberate indifference:

He is still being denied any medical examination or treatment for the severe head injury inflicted by U.S. Marshals on September 4th.

The BOP has deliberately reduced his life-sustaining seizure medication.

He is being illegally blocked from filing any grievance. Staff have locked his email and are refusing to provide him with the required forms, telling him to get them from a counselor who is never there. I filed a formal complaint with the DOJ Inspector General about this obstruction this morning.

I am listening to the fear and agony in my husband's voice on the phone, and I am watching a federal court and a federal prosecutor do nothing. This is not bureaucracy. This is torture. The silence from every official channel is a form of passive complicity in what is happening.

I know you have told me you are limited in what you can do. But a disabled veteran is being tortured and is in imminent danger of death in federal custody. I am on the verge of complete collapse under the weight of this horror.

I am formally notifying both of you of these facts. If Conrad dies, the record will show that both Senator Slotkin's office and the VA were aware of the torture that preceded his death.

Please, for the love of God, do something.

Subject: URGENT: VETERAN CONRAD ROCKENHAUS PHYSICALLY ASSAULTED AT FCI MILAN IN DIRECT RETALIATION FOR WHISTLEBLOWING

I am writing to you under the most dire circumstances. The entrapment scheme I reported to your office yesterday has come to its violent, predictable conclusion.

My husband, veteran Conrad Rockenhaus, was just physically assaulted in the computer lab at FCI Milan.

The perpetrators were the very inmates involved in the extortion racket that Conrad exposed in the intelligence I sent you yesterday—the ones he named. They have now targeted him directly for his whistleblowing.

Their method was the most vile and dangerous in the prison environment: they spread the rumor that he is a child molester to incite the attack. This is a kill tag, and it is a direct result of the environment being cultivated by BOP guards CRENSHAW and ZELINSKI.

Conrad is now trapped. He is being denied access to the computer lab—a place with no cameras where he is now a marked man—cutting him off from his ability to work on his own legal defense.

This is the "or else" the lieutenant threatened him with. This is the direct, bloody consequence of a criminal conspiracy being run by federal employees inside a federal facility. They set the trap, and now it has been sprung.

His life is in imminent danger. We need the Senator's immediate and forceful intervention before they succeed in murdering him.

Thank you,

Adrienne Rockenhaus

Subject: Request for Official Observers at Sentencing of Disabled Combat Veteran Conrad Rockenhaus

I am writing to you today to formally request your presence, or the presence of representatives from your respective offices, as official observers at a critical sentencing hearing for my husband.

As you know from our previous correspondence, Conrad is a 100% disabled combat ribbon veteran with a service-connected Traumatic Brain Injury and a combat ribbon from his service in the Middle East. This entire case is a direct and provable act of retaliation by federal officers, which began after I filed a formal misconduct complaint.

This retaliation culminated in a violent raid on our home, where federal agents kicked my disabled husband in the head, causing him to suffer a grand mal seizure. Now, they are

attempting to sentence him based on what we can prove are fraudulent violations, and they are counting on doing so without any public or official scrutiny.

We believe the presence of observers from Senator Slotkin's office and the Department of Veterans Affairs in the courtroom would serve as a powerful shield against further injustice and be a profound statement that our government is watching to ensure accountability.

The details of the hearing are:

WHEN: Tuesday, October 14, 2025, at 12:00 PM (Please arrive by 11:30 AM)
WHERE: The Theodore Levin U.S. Courthouse, Courtroom 216 (Judge Stephen J. Murphy III), 231 W. Lafayette Blvd, Detroit.

For the full story, video evidence of the raid, and all supporting documents, please visit our public record at rockenhaus.com.

We have also created a Facebook Event page to rally community support here:
https://www.facebook.com/events/1556188492412649

A printable flyer is available here:

Subject: UPDATE Regarding Conrad Rockenhaus - Federal Court Hearing on Oct 14

Dear Senator Slotkin's Office,

I am writing to provide you with a critical update regarding the federal court hearing for my husband, Conrad Rockenhaus, which took place yesterday, October 14.

The hearing resulted in a stunning accomplishment for accountability. The judge's plan was completely shattered.

Chief Judge Stephen J. Murphy III was visibly nervous and overwhelmed by the public oversight. He confessed on the record that he could not rule on the case because of the Bivens lawsuits and the 6th Circuit complaint for judicial misconduct that I had filed. He claimed he only just found out about them, which is verifiably false.

In his statement, the judge made a point to single me out, falsely claiming that my husband had not filed any of these actions himself and that I was the sole actor. This was a clear and transparent attempt to discredit me personally and blame me for the legal crisis.

Immediately following this, the court-appointed lawyer, Sanford Plotkin, lied in open court, reinforcing the judge's false narrative. After the judge publicly forbade him from asking me to drop the lawsuits because it would be "unethical," Mr. Plotkin approached me in front of witnesses and whispered that exact unethical request.

Tellingly, the judge refused to mention the violent raid by U.S. Marshals. My husband's military service and his service-connected Traumatic Brain Injury were also completely ignored.

Ultimately, the judge ADJOURNED the hearing and announced he will likely RECUSE HIMSELF from the case.

While the judge's recusal is a significant step, the fight is not over. My husband, Conrad, remains unjustly incarcerated at FCI Milan while we await the assignment of a new judge. The next hearing has been scheduled for November 18.

The public record of all evidence, including video of the raid and documentation of the lawyer's misconduct, is available at rockenhaus.com.

Thank you for your continued attention to this critical issue of judicial integrity and the treatment of a disabled veteran.

Sincerely,

Adrienne Rockenhaus

Date: Wednesday, October 15, 2025 at 5:59 PM
Subject: Formal Notification & Urgent Update Regarding Constituent Conrad Rockenhaus

I am writing to provide a formal, urgent update concerning my husband, 100% disabled U.S. combat veteran Conrad Rockenhaus, for whom your office has already opened a formal congressional inquiry with the federal Bureau of Prisons.

The situation has escalated into a crisis of judicial integrity.

On Tuesday, October 14, 2025, a hearing was held before Chief Judge Stephen J. Murphy III. That hearing saw a significant public turnout, which included reporters, legal observers, and concerned citizens from the Detroit community. Faced with this public scrutiny, the judge was visibly nervous, lied from the bench, and abruptly ended the hearing, stating on the official court record that he would likely recuse himself from the case.

Today, in a shocking reversal, Judge Murphy has rescinded his on-the-record statement and scheduled an emergency sentencing hearing for Conrad for this Friday, October 17, 2025, at 1:00 PM, providing less than 48 hours' notice. This appears to be a deliberate attempt to rush a sentence in a courtroom free from the public oversight that clearly impacted his conduct on Tuesday.

This action follows a pattern of troubling conduct by the court. During Tuesday's hearing, the Judge refused to acknowledge the violent September 4th raid by U.S. Marshals that caused my husband's head injury and subsequent grand mal seizure in court. He also failed to mention the pending Emergency Petition for a Writ of Habeas Corpus (Case No. 2:25-cv-12913) that details life-threatening medical abuse in federal custody.

To be clear, we are not asking your office to interfere in a legal matter. We are asking you to witness a profound injustice happening to one of your constituents. This is a matter of significant public and congressional concern. If this urgent issue falls outside your direct purview, I implore you to forward and escalate this notification to the appropriate staff member or committee with oversight on judicial conduct and accountability.

Hearing Details:

WHEN: Friday, October 17th, 2025, at 1:00 PM (please arrive by 12:00 PM)
WHERE: Courtroom 216, Theodore Levin U.S. Courthouse, 231 W Lafayette Blvd, Detroit, MI 48226

Please see the following evidence:

Subject: Emergency: Conrad Is in Immediate Danger and Your Assistance Is Blocked (CC: Senator Slotkin)

Mr. Wright,

Conrad is being harmed in retaliation for my advocacy, and I am now being targeted by individuals connected to extortion activity inside FCI Milan who are threatening to harm him if I do not comply. This began immediately after BOP staff were notified of my complaint today. Conrad urgently needs VA advocacy, but every attempt he has made to provide you the

required Release of Information has been blocked by the institution. I am renewing my request for your direct assistance, and I am copying Senator Slotkin's office so there is a full record that Conrad's inability to submit the ROI is due to BOP obstruction, not his lack of consent.

Please do something immediately, his life depends on it.

Subject: Urgent Supplement: (Case 06-25-90135): Judge Murphy is facilitating the lethal retaliation of my husband to cover up SEXUAL HARASSMENT & VIOLENCE against me (woman with no criminal history)

I am filing this Urgent Supplement to Judicial Misconduct Complaint #06-25-90135 against District Judge Stephen J. Murphy III. This judge is actively facilitating the death of my husband, a 100% disabled, service connected veteran, in federal custody. My husband has a pre-existing TBI from service, as well as pain and other serious medical issues related to military service. My husband is dying in custody from a new, deliberately untreated head injury caused by U.S. Marshals.

This judge also took retaliatory actions that put my life in serious danger. Murphy did this to cover up criminal retaliation, perjury, sexual harassment and violence committed against me by federal officers. I am a female with no criminal record.

Murphy is also covering up a severe head injury inflicted on my husband by U.S. Marshals. (Video of this violence included below) He is concealing the BOP's refusal to treat it, while they are intentionally letting him die in horrific pain.

I am attaching a medical letter from Dr. Robert Garcia, a Board Certified Psychiatrist. This document confirms that I am suffering from severe PTSD and trauma as a direct result of the terror and violence authorized by Judge Murphy and this Court. Do not dismiss this email for procedural reasons or tell me to "mail it in." I am medically incapacitated by this violence, and I am reporting an active life-or-death emergency.

The terrorization began over a year ago. It escalated when I filed a formal complaint against U.S. Probation Officer Stylianos Agapiou for illegally seizing my property, terrorizing me, and

harassing me. He also violated a clear "No Contact" directive three separate times: texting me in defiance of the order, calling me aggressively, and weaponizing court filings to drag me into criminal proceedings.

To justify the arrest of my husband, the Probation Office manufactured a fraudulent warrant. Supervisor Jeffry Konal committed perjury, swearing to the Court that my husband was an "absconder" whose "whereabouts were unknown". This was a lie. At the exact moment he signed that warrant, Konal was texting me and knew perfectly well that my husband was hospitalized in a VA facility.

There was no valid legal basis for the arrest; the warrant was obtained through fraud to punish us for speaking out.

The violence escalated to sexual harassment and armed assault. A "Gray Beard" U.S. Marshal sexually violated my dignity by making lewd, sexual comments about my body to my husband while he was handcuffed, terrorizing him because he was helpless to stop them from harming me. The marshal did this while transporting my husband, driving 90mph recklessly on the shoulder of the highway.

I filed a federal civil rights lawsuit against this Marshal for sexual harassment, and the three Probation Officers engaging in terrorizing me, in order to protect my life. In direct retaliation for that lawsuit, this same "Gray Beard" Marshal returned to my home (not my husband's home) on September 4, 2025. He pointed a gun directly at my face through my bedroom window and used violence against me by using his body to hold my kitchen door shut while I tried to get out. He did this to hold me prisoner inside so I could not stop the gang of marshals beating my husband outside. They had no warrant. This is all captured on video.

The violence against my husband was life-threatening and captured on video. U.S. Marshals beat my husband in the head, inflicting a severe head injury. Hours later, the federal Duty Court witnessed the result of this beating when my husband suffered a grand mal seizure in the courtroom.

Judge Murphy is the one protecting these abusers. On October 14, 2025, I sat in the courtroom prepared to report these crimes, but Judge Murphy refused to let me speak. He and the attorneys pretended I was not there, while telling lies on the record to minimize, humiliate, and dismiss me. (Oct 14 transcript)

While I sat silenced in the gallery, Judge Murphy talked about me in a way that actively endangered me. Instead of addressing the sexual harassment, the gun to my face, the violence, the head injury, the medical torture, or the fraudulent warrants, the transcript proves he dismissed these serious reports of violence as "his wife's behavior".

By publicly labeling the terror I survived as "behavior," he erased me as a victim and gave the same federal agents present in the courtroom who abused me a green light to continue harming me.

Two weeks after Judge Murphy made those comments, his signal was received: I was run off the road. (Exhibit provided)

My husband is now dying in FCI Milan because Judge Murphy suppressed the evidence of the head injury to protect the Marshal who sexually harassed and assaulted me. The Bureau of Prisons is engaging in medical torture by withholding care for his brain injury, and he will die if you do not act. The escalating danger to me will also continue.

You must investigate Judge Murphy immediately for facilitating this execution and covering up the crimes of federal officers before one or both of us gets killed.

Subject: Coordination with Contract Rabbi at FCI Milan

I have confirmed that FCI Milan contracts with Congregation Beth Chabad for Jewish services. The Aleph Institute is contacting this Rabbi to attempt an emergency welfare check in the SHU.

Please call Warden Rardin immediately and demand that he grant the Contract Rabbi immediate access to Conrad Rockenhaus for a welfare check. My husband is seizing and dying from deliberate medical neglect, and this Rabbi may be the only independent witness who can get in today to save his life.

Subject: REFUSAL OF ACCESS: Constructive Denial of Release Form (Conrad Rockenhaus #39400-480) - HIPAA 45 CFR § 164.512(j) DEMAND

Mr. Wright:

You have stated you cannot communicate with me regarding my husband, Conrad Rockenhaus, because he has not signed a release of information.

My husband confirmed to me that BOP staff are refusing to provide him with the form to sign.

This is Constructive Denial of Access.

You are allowing the Bureau of Prisons to use a bureaucratic blockade to hide the medical deterioration of a combat veteran.

I am hereby demanding you take one of the following two actions immediately:

Invoke the "Imminent Threat" Exception: Under HIPAA 45 CFR § 164.512(j)(1)(i), you are authorized to disclose information without consent to prevent a "serious and imminent threat to the health or safety of a person." Conrad is suffering untreated seizures in solitary confinement. The threat is imminent.

Stop hiding behind a form.

Conduct a Welfare Visit: As the VJO Coordinator, it is your specific job to bridge the gap between the VA and the prison. Go to FCI Milan, enter the SHU, and physically provide him with the release form. If the BOP refuses you entry, I expect you to report that obstruction to Senator Slotkin’s office (CC'd here) immediately.

You cannot hide behind a missing signature when the prison is the one stealing the pen.

Sincerely,

Adrienne Rockenhaus
Wife, Caregiver (Designated by SSA), POA, Next Friend of Conrad Rockenhaus

Subject: YOU CANNOT BURY THIS: The Audio of Conrad Rockenhaus Begging for Help /Seizures is Now Public

BOP and DOJ,

For months, you have hidden behind "policy," "procedure," and false claims that my husband "refused" to sign forms. You have tried to bury his suffering in paperwork.

That ends now.

The audio recording of Conrad Rockenhaus calling from the SHU, sobbing in pain, chemically restrained with antipsychotics, and identifying the "Neo-Nazi" guards abusing him, is now public.

People are watching it. They are hearing it. And you cannot make them un-hear it.

THE REALITY YOU CANNOT PAPER OVER:

The Audio: The world can now hear a combat veteran crying because he is being beaten and bruised by the very guards he identified as having Nazi tattoos.

The Confession: They can hear him admit he is being forced onto Zyprexa (chemical restraint) because the abuse has destabilized him. This is a medication that could kill him with his other medical conditions. Your facility has no license nor ability to treat my husband's conditions, and the malpractice is killing him. You have been repeatedly notified.

THE MEDICAL EMERGENCY YOU ARE PRETENDING ISN'T REAL: In this recording, the world can hear a combat veteran describe the exact symptoms of a dying brain, which your staff is ignoring:

The Seizures: "I'm having seizures at least once a week".

The Auras (Warning Signs): "I'm seeing auras every day and they're pretty bad". You would know that daily auras are the precursor to fatal grand mal seizures in TBI patients if your facility was in any way equipped for TBI care (it is not).

The Pain: "My headaches are very frequent, daily... so bad that basically I volunteered for MMT therapy [Suboxone] just to get on strong enough pain relief".

The Coercion: You have forced a veteran to enroll in an addiction protocol just to get relief from a combat injury because you refuse to treat his TBI.

You cannot suppress this with a memo. You cannot hide this with a "Care Level" excuse. You are currently presiding over the documented torture of a disabled veteran, and the evidence has escaped your control.

THE CHOICE: The views on this evidence are climbing. The outrage is real. You are holding a radioactive situation that is only getting worse every hour he remains in that cell.

Everyone who has the power to do something, and does not, will be held liable for his murder if he dies. Qualified immunity does not protect you from such horrific acts of malice, violence, and torture.

Do not send me another form letter. Do not quote another policy.

Transfer Conrad Rockenhaus (#39400-480) to a local VA Medical Center, a local civilian ER, or home so I can take him to get required medical care immediately.

If he dies in that cell, the world will not be reading your internal reports. They will be listening to the recording of him begging for his life.

Govern yourselves accordingly.

—----------

MEDICAL KIDNAPPING/RECORDS (LIABILITY ASSUMPTION): It has been confirmed that following the violent assault by U.S. Marshals on September 4, 2024 (captured on video), Conrad Rockenhaus was transported to a local hospital. Medical records prove he was subsequently removed from that facility Against Medical Advice (AMA) by USMS while medically unstable. By removing a patient against a doctor's orders, the U.S. Marshals and receiving BOP facility assumed full medical liability for his life. You intercepted his care, and every seizure he has suffered since is the direct legal result of that interference. You will be held criminally liable for every seizure.

WITNESS CONFIRMATION OF UNCONSCIOUS ARRIVAL: We have sworn witness testimony confirming that Mr. Rockenhaus did not walk into detention; he was dragged in. Witnesses state he was brought into the facility unconscious and unresponsive following the extraction from the hospital. The BOP accepted custody of an unconscious, head-trauma victim without proper medical clearance. This destroys any claim that he was "fine" upon arrival.

THE CHAIN OF EVIDENCE (VIDEO TO SEIZURE): The timeline of his injury is now irrefutable and supported by three distinct forms of evidence which are public and viral:

The Cause (Video): Footage shows the physical assault and head trauma inflicted during the raid.
The Aftermath (Witnesses): Testimony confirms he was dragged into the jail unconscious.
The Result (Audio): Court records from later that same day capture him suffering a seizure during his arraignment.

DEMAND FOR PRESERVATION & TRANSFER: You are holding, torturing, and murdering a man who was kidnapped from a hospital bed. The "Hospital Records" from that day will prove he was unstable for transport. Your continued refusal to treat his Traumatic Brain Injury (TBI) while suppressing these records constitutes Malicious Deliberate Indifference, including anyone reading this message (logs will show who). I demand his immediate transfer to a local VA or medical facility to correct the deliberately murderous decision made on September 4 to remove him from care.

Failure to act on this information THIS INSTANT confirms your intent to let him die to cover up the initial assault.

_____

I. NATURE OF COMPLAINT: RETALIATION & INTIMIDATION

I am filing this formal administrative complaint regarding a specific incident of staff misconduct, intimidation, and implied threats of violence against my husband, Conrad Rockenhaus, which occurred on January 12, 2026, during his transport from the Special Housing Unit (SHU) to the Federal Detention Center (FDC) unit at FCI Milan.

II. STATEMENT OF FACTS

On January 13, 2026, during a recorded telephone call, Mr. Rockenhaus reported the following events:

Identification of Targets: During transport on Jan 12, two BOP officers (one escorting, one receiving) stopped to discuss Mr. Rockenhaus. One officer identified him not by name or number, but by stating: "This is Rockenhaus's husband."
Audio recording:
https://web.archive.org/web/20260113195101/https://rockenhaus.com/wp-content/uploads/2026/01/Conrad-Rockenhaus-Creepy-Guards-FCI-Milan-Transport-Jan-12.wav

Motive for Hostility: The officers explicitly stated that I (his wife) was "creating a whole bunch of problems for them." This statement confirms that their hostility toward Mr. Rockenhaus is direct Retaliation for my protected First Amendment activity (reporting staff misconduct and medical neglect).

Implied Threat of Violence ("Deliverance"): The officers stopped moving him and stared at him in silence for approximately one minute. Mr. Rockenhaus described the look as "really creepy" and specifically compared the atmosphere to the movie Deliverance.

Note: The film Deliverance is culturally synonymous with sexual violence, isolation, and lawless abuse by locals against outsiders. For federal agents to evoke this specific fear in a restrained, brain-injured inmate is a psychological terror tactic implying sexual or physical assault.

III. PRESERVATION DEMAND

I hereby demand the IMMEDIATE PRESERVATION of all video surveillance footage from the SHU transport corridors, elevators, and FDC intake/booking areas for January 12, 2026.

The specific interaction involves two officers stopping to stare at the inmate. This footage will corroborate Mr. Rockenhaus's account of the "stand-down" intimidation tactic. Failure to preserve this footage after this specific notice will be cited as Spoliation of Evidence in pending federal litigation.

IV. RELIEF REQUESTED

Identify the Officers: Immediate identification of the two officers involved in the January 12th transport.

No Contact Order: These officers must be prohibited from having any contact, supervision, or transport duties involving Mr. Rockenhaus, as they have demonstrated a retaliatory motive.

OIG Investigation: I request the Office of the Inspector General interview these officers regarding who told them my complaints were "creating problems," as this indicates a facility-wide directive to target my husband.

My husband is a disabled veteran with a Traumatic Brain Injury. He is currently in your custody. Any harm that comes to him after this explicit warning will be evidence of Deliberate Indifference.

Subject: FWD: Staff Misconduct - URGENT SAFETY THREAT - Conrad Rockenhaus

I need something to be done, now. Attached is the recording from today where Conrad confirms officers are intimidating him specifically because they said I am 'creating problems' for them, and insinuating that they will harm me. You need to file immediately as proof that staff are actively retaliating against him for my complaints. I cannot call the police for this. I have no options but for someone with more authority to do something. Please, Kaycee.

Subject: Conrad Rockenhaus Creepy Guards FCI Milan Transport Jan 12.WAV

To All Counsel and Officials:

Read the forwarded email below, immediately.

Attached is audio evidence recorded today confirming that BOP staff at FCI Milan are actively retaliating against my husband for my OIG complaints.

In this recording, officers explicitly identify him as a target because I am "creating problems" for them, then proceed to menace a brain-injured inmate with implied threats of sexual violence against me (comparing the interaction to the film Deliverance) during transport. This is no longer just negligence; it is documented Witness Intimidation by federal agents against a protected source. Do something about it now.

Preserve the video surveillance of this transport immediately.

Subject: FWD: Staff Misconduct - FRAUD & MEDICAL OBSTRUCTION: Warden Rardin & Strassel (AUDIO EVIDENCE)

To the Department of Justice, BOP, and Oversight:

Please see the formal complaint I have just filed with the Bureau of Prisons (forwarded below).

I am now providing you with the direct audio evidence proving that Warden Eric Rardin and Associate Warden Mary Strassel have been lying to your offices about my husband, Conrad Rockenhaus (39400-480).

THE LIE: For months, FCI Milan Executive Staff emailed me and Senator Slotkin’s office claiming my husband "refused" to sign medical release forms. They used this excuse to withhold evidence of his Traumatic Brain Injury inflicted by U.S Marshals in an illegal raid.

THE TRUTH (AUDIO EVIDENCE): I have audio documenting Warden Rardin’s visit to my husband’s cell in the SHU at 6:30 AM.

Listen to the full interaction here: https://youtu.be/2SdLE3WMN8o?si=MnBAX0VbXidzDrFP

The recording proves:

Political Panic: Warden Rardin admits, "I got a call from [E]lissa Slotkin," proving he was not there for medical care, but to cover his liability due to Senate pressure.

The "Refusal" Fraud: My husband explicitly tells the Warden, "I signed like five of them already." When Rardin denies it, my husband agrees to sign them again immediately.

Blackmail & Intimidation: Associate Warden Strassel's staff is heard threatening to "release everything" to the Senator and myself, attempting to blackmail a brain-damaged veteran into silence. My husband called their bluff: "Yes, release everything."

Why they are lying: Warden Rardin is obstructing these records because they confirm the untreated Traumatic Brain Injury (TBI) caused by the U.S. Marshals during the warrantless raid on September 4th. The "accidental dump" of USMS internal reports (which I already possess) confirms the timeline of the assault.

My Demand: Warden Rardin must cease this administrative fraud and release the records immediately. The "refusal" excuse is dead. The audio is public.

Thank you for reporting your staff misconduct concern(s), your email has been routed for appropriate review.

FORMAL COMPLAINT: FRAUD & OBSTRUCTION (Conrad Rockenhaus – Inmate 39400-480)

I am reporting Warden Rardin & AW Strassel for falsifying records to obstruct medical care.

On Dec 12 & 17, Staff emailed me stating Inmate Rockenhaus “refused” to sign medical releases. THIS IS A LIE.

AUDIO/PHOTO EVIDENCE: https://fitspo.net/rardin-strassel-fraud

I have obtained audio that describes Warden Rardin visiting my disabled veteran husband, inmate Conrad Rockenhaus, at 6:30 AM due to “a call from Senator Slotkin.” In the recording, my husband explicitly confirms he “signed five” releases. Rardin denied it to delay care. AW Strassel’s staff then threatened to “release everything” to intimidate my brain-injured husband.

Conrad consented immediately: “Release it.”

Rardin is suppressing these records because they confirm an untreated Traumatic Brain Injury (TBI) caused by US Marshals. The “refusal” narrative is a fabrication to cover up a violent assault. I demand immediate release of all medical records.

Evidence sent to OIG.

Subject: FW: Staff Misconduct - URGENT: MEDICAL ENDANGERMENT & CHEMICAL RESTRAINT (Reg. No. 39400-480)

To All:

Please find attached the OFFICIAL NOTICE OF MEDICAL LIABILITY & ENDANGERMENT regarding the contraindicated medical treatment of Inmate Conrad Rockenhaus (100% Disabled Veteran).

This forensic report documents that FCI Milan medical staff, including Registered Nurse Nicole Cloum, are actively administering Olanzapine (Zyprexa) to a patient with a documented history of Grand Mal Epilepsy and Combat Traumatic Brain Injury (TBI).

This acts as formal notice of the following constitutional and medical violations:

IMMINENT SEIZURE RISK: The FDA Label explicitly warns that Olanzapine lowers the seizure threshold. Administering this agent to a known epileptic, while simultaneously denying anti-seizure medication, creates a foreseeable and lethal risk of Status Epilepticus and Sudden Unexpected Death in Epilepsy (SUDEP).

TBI NEUROTOXICITY: Research confirms that dopamine antagonists inhibit neural recovery in TBI patients. Continuing this regimen constitutes iatrogenic neurotoxicity and violates American Academy of Neurology guidelines.

ILLEGAL CHEMICAL RESTRAINT: The administration of this drug without the Due Process hearings mandated by 28 CFR § 549.43 constitutes illegal chemical restraint for custodial convenience.

THE DEMAND:

I demand the immediate discontinuation of this contraindicated medication and the immediate transfer of Mr. Rockenhaus to a local VA facility capable of managing his neurological conditions without endangering his life.

You are now on notice. Continued indifference to these documented contraindications will be cited as evidence of willful negligence and deliberate indifference under the Eighth Amendment.

View the Full Forensic Report & Evidence Here (also attached as PDF):

—----------

Staff are prescribing Olanzapine (Zyprexa) to Conrad Rockenhaus, a 100% Disabled Veteran with Grand Mal Epilepsy & Combat TBI. This constitutes Deliberate Indifference:

IMMINENT SEIZURE RISK: FDA Label warns Olanzapine lowers seizure threshold. Prescribing this to an epileptic while denying anti-seizure meds creates a foreseeable risk of SUDEP/Death.
TBI NEUROTOXICITY: Dopamine antagonists inhibit neural recovery in TBI patients, violating AAN Guidelines.
CHEMICAL RESTRAINT: This violates 28 CFR § 549.43 and VA/DoD PTSD Guidelines. It is illicit behavioral control, not treatment.

Staff are ignoring federal VA adjudications to endanger a patient's life.

Subject: FW: Staff Misconduct - FORMAL STAFF MISCONDUCT: RN Nicole Cloum (FCI Milan).

To All Named Respondents:

This is a formal REPORT OF STAFF MISCONDUCT regarding Registered Nurse Nicole Cloum (FCI Milan).

Investigation confirms that RN Cloum provided FALSE TESTIMONY during a recent Disciplinary Hearing Officer (DHO) proceeding regarding Inmate Conrad Rockenhaus (Reg. No. 39400-480).

THE VIOLATION: RN Cloum testified on the official record that Inmate Rockenhaus has "no seizure condition" and is "perfectly healthy."

THE TRUTH: Inmate Rockenhaus is a 100% Service-Connected Disabled Veteran. His 2017 Federal VA Rating Decision (attached in the report) explicitly establishes a 100% Disability for Seizure Disorder and states "Continuous medication is shown necessary for the control of epilepsy."

THE MOTIVE: RN Cloum utilized this lie to classify the inmate's neurological symptoms (slurred speech, drowsiness, confusion) as "disciplinary infractions," thereby facilitating Medical Retaliation and justifying his placement in Solitary Confinement.

EVIDENCE PRESERVATION DEMAND (SPOLIATION NOTICE): I possess contemporaneous reports confirming RN Cloum's perjury during the DHO hearing. I formally demand the immediate sequestration and preservation of the AUDIO RECORDING and TRANSCRIPT of that DHO proceeding. This government record contains direct evidence of staff falsifying medical history to harm an inmate. Any loss, destruction, or "corruption" of this DHO record following this notice will be cited as Spoliation of Evidence in federal court.

Review the Full Misconduct Report Here (also attached as PDF):

—----------

RN Cloum provided FALSE TESTIMONY in a Disciplinary (DHO) hearing, stating Inmate Rockenhaus (Reg. No. 39400-480) has "no seizure condition" and is "perfectly healthy." This falsification directly contradicts his federal 2017 VA Rating Decision (100% Disabled for Seizures/TBI). She utilized this lie to classify his neurological symptoms (slurred speech/drowsiness) as disciplinary infractions, enabling Medical Retaliation.

This violates BOP Program Statements 3420.11 (Conduct) & 6031.04 (Patient Care). PRESERVATION DEMAND: I demand the immediate sequestration of the DHO Audio Recording and Transcript. I possess contemporaneous reports of this perjury. Any loss or destruction of the DHO record following this notice will be treated as Spoliation of Evidence.

Thank you for reporting your staff misconduct concern(s), your email has been routed for appropriate review.

—-------

To the Office of the Inspector General and BOP Internal Affairs:

I am filing a formal complaint regarding Officer Jason James Zielinski, currently employed as a Federal Corrections Officer at FCI Milan.

Forensic analysis of public court records indicates that Officer Zielinski obtained his federal employment and security clearance by concealing a violent felony arrest on his SF-86 National Security Questionnaire, in violation of 18 U.S.C. § 1001.

1. THE FORENSIC PROOF OF THE HIDDEN FELONY
While Officer Zielinski has successfully expunged his primary criminal record, a procedural error in the Macomb County Court database has left a visible "trace" that proves the arrest occurred.
The Visible Record: Macomb County Case No. 2004-001725-FH (Charge: Felony Home Invasion - 2nd Degree) is currently visible in the public index.

The "Ghost" Reference: The docket for this visible case explicitly states: "CONSOLIDATED TO MASTER CASE 200401724FH" and "TO BE DISMD PER PLEA ON 04-1724-FH".
The Evidence: While the "Master Case" (2004-01724-FH) has been expunged and hidden from public view, the visible companion case (2004-001725-FH) remains in the system and references the plea deal. This is irrefutable proof that Jason James Zielinski was arrested and charged with multiple felonies, even if the primary record is now sealed.

2. THE FEDERAL VIOLATION (SF-86)
As you are aware, Section 22 of the Standard Form 86 explicitly asks: "Have you EVER been arrested for, charged with, or convicted of any felony?" The instructions mandate the disclosure of ALL arrests, regardless of whether the record was sealed, expunged, or dismissed.
Officer Zielinski appears to have relied on the state-level expungement to answer "NO" to this question on his federal application. This concealment constitutes Federal Hiring Fraud and disqualifies him from a position of public trust.

3. CURRENT THREAT TO SAFETY
This fraudulent concealment is directly relevant to ongoing misconduct. Officer Zielinski is currently the subject of reports regarding:
Affiliation with Extremist Groups: He openly displays "Reichsadler" (Nazi Eagle) tattoos while on duty.
Inmate Abuse: He is actively targeting Inmate Conrad Rockenhaus (Reg No. 39400-480) with physical abuse and "kill tags" in retaliation for whistleblowing.

DEMAND FOR IMMEDIATE AUDIT
The Bureau of Prisons has armed a man with a history of home invasion who lied to the federal government to obtain his badge. I demand an immediate cross-reference of Officer Zielinski's original SF-86 application against Macomb County Case No. 2004-001725-FH today.

A copy of the BOP "auto confirmation" confirming receipt of this message, will be forwarded to Journalists worldwide.

EVIDENCE:
Macomb County Court Record (Case 2004-001725-FH): Showing the Home Invasion charge and the cross-reference to the expunged Master Case (04-1724-FH)
https://courtpa.macombgov.org/eservices/home.page.2.

Subject: Evidence of Federal Hiring Fraud (18 U.S.C. § 1001) - Officer Jason James Zielinski (FCI Milan)

OIG, BOP and DOJ:

I am writing to formally refer to evidence of Federal Hiring Fraud committed by Officer Jason James Zielinski, a Federal Corrections Officer currently employed at FCI Milan.

This information has been simultaneously submitted to the Bureau of Prisons Office of Internal Affairs as well as journalists worldwide.

1. THE VIOLATION (18 U.S.C. § 1001)
Forensic analysis of Macomb County, Michigan court records indicates that Officer Zielinski concealed a violent felony arrest history on his SF-86 National Security Questionnaire.

Officer Zielinski likely answered "NO" to Section 22 ("Have you EVER been arrested...") by relying on a state-level expungement. However, federal law mandates the disclosure of all arrests, regardless of expungement.

Concealing this to obtain a position of public trust is a federal crime.

2. THE FORENSIC EVIDENCE (The "Ghost" Record)
While Officer Zielinski successfully expunged his primary criminal file, the court clerk's database contains a procedural error that exposes the arrest.
I am providing you with the specific cross-reference numbers to verify this immediately:

The Visible Record:
Macomb County Case No. 2004-001725-FH (Charge: Felony Home Invasion - 2nd Degree) remains visible in the public index.

The "Hidden" Proof:
The docket text for this visible case explicitly states: "CONSOLIDATED TO MASTER CASE 200401724FH".

The Plea Deal:
The docket confirms the case was "DISMD PER PLEA ON 04-1724-FH".

Investigative Note:
The "Master Case" (2004-01724-FH) is the expunged record he is hiding.
The existence of the visible companion case (2004-001725-FH) is irrefutable proof that he was arrested and charged with Home Invasion, a fact he was legally required to disclose to federal investigators.

3. URGENCY & THREAT ASSESSMENT
This is not a past administrative error; it is an active, escalating safety threat.
Officer Zielinski is currently identified as the ringleader of a white supremacist cell at FCI Milan.

He openly displays "Reichsadler" (Nazi Eagle) tattoos while on duty and is actively retaliating against my innocent, disabled veteran husband, and whistleblower Conrad Rockenhaus, with physical abuse and "kill tags".

DEMAND FOR ACTION
I request that the OIG immediately audit Officer Zielinski's original SF-86 application.
If he failed to list Macomb County Case No. 2004-001725-FH or 2004-01724-FH, he committed fraud to obtain his badge and must be removed from federal service.

Subject: FW: Staff Misconduct - URGENT MEDICAL EMERGENCY: Inmate 39400-480 (Rockenhaus) – Rapid Weight Loss & Urology Referral – IMMEDIATE ACTION REQUIRED

RECEIPT ACKNOWLEDGED BY BOP: CONSTRUCTIVE NOTICE ESTABLISHED

The automated response confirms that the Bureau of Prisons and Department of Justice have successfully received my Notice of Medical Emergency regarding Inmate 39400-480 (Conrad Rockenhaus).

You are now officially on notice regarding:

Rapid Weight Loss: The undocumented loss of 16 lbs (7% body mass).
Organ Dysfunction: The admission that he requires an outside Urology referral (Ann Arbor VA).
Communication Blockade: The ongoing isolation tactics.

Any failure to act from this minute forward constitutes Deliberate Indifference under the Eighth Amendment, as you can no longer claim ignorance of his condition.

Govern yourselves accordingly,

Adrienne Rockenhaus (Wife, Next friend, Advocate, Caregiver, & Power of Attorney)

—----------

I am in receipt of a direct communication from my innocent, dying, disabled veteran, political prisoner, torture victim, and whistleblower husband, Conrad Rockenhaus, dated January 21, 2026, which confirms that he is suffering from rapid physical deterioration and that FCI Milan medical staff have identified a condition severe enough to require outside intervention.

1. EVIDENCE OF RAPID DETERIORATION (RAPID WEIGHT LOSS)
Conrad Rockenhaus reports dropping from 230 lbs to 214 lbs since his arrest.
This represents a loss of 16 pounds (approx. 7% of body mass) in a short period.
Under BOP Clinical Practice Guidelines, unexplained rapid weight loss is a critical indicator of systemic illness or malnutrition.

Combined with his known Traumatic Brain Injury (TBI) and the administration of Olanzapine (Zyprexa), a metabolic disruptor, this weight loss suggests he is either unable to eat due to nausea/neurological damage or is suffering from metabolic failure.

2. CONFIRMED REFERRAL TO OUTSIDE SPECIALIST (UROLOGY)
Mr. Rockenhaus states that BOP staff are "referring me to the urology clinic at the Ann Arbor VA".

This admission proves that FCI Milan acknowledges a medical condition they cannot treat on-site.

Given Mr. Rockenhaus’s severe TBI (inflicted by U.S. Marshals on Sept 4, 2025), a urological issue is highly indicative of Neurogenic Bladder (nerve damage) or Rhabdomyolysis (kidney damage from physical trauma).

The Contradiction: You cannot claim he is "healthy" while simultaneously shipping him to an outside federal hospital for organ dysfunction.

3. PSYCHOLOGICAL TORTURE & ISOLATION
Mr. Rockenhaus expressed in his message that he believes I am "not talking" to him.
The Fact: I have sent him continuous messages regarding my efforts to secure his medical care.

The Violation: It appears FCI Milan is delaying or withholding my electronic communications to create a sense of abandonment.
Intentionally isolating a TBI patient suffering from paranoia/confusion is a form of psychological torture and violates his First Amendment right to familial association.

DEMAND FOR IMMEDIATE ACTION:
IMMEDIATE MEDICAL FURLOUGH: Since FCI Milan has already admitted he requires the Ann Arbor VA for urology, verify that this transport is happening immediately, this instant, not weeks from now.
NUTRITIONAL INTERVENTION: He requires immediate nutritional support (Ensure/Supplements) to arrest the 16lb weight loss.
COMMUNICATION VERIFICATION: I demand confirmation that this message has been delivered to him so he knows he has not been abandoned.
RELEASE OF MEDICAL RECORDS: I demand the immediate release of the Consult Request sent to the Ann Arbor VA so that I may review the diagnosis triggering this referral.

WARNING: This email serves as Constructive Notice that Mr. Rockenhaus is deteriorating in your custody. If he suffers permanent organ damage or death due to delay in this Urology/VA referral, this correspondence will serve as evidence of Deliberate Indifference under the Eighth Amendment. “Qualified Immunity” does not protect you from pre-meditated murder. Every single person reading this is on personal notice.

Stop this horror you are intentionally inflicting on a dying, disabled veteran now. The world is sickened by your cruel acts of violence and torture. Do the right thing, immediately, without any further delay.

Govern yourselves accordingly.

Adrienne Rockenhaus (Wife, Next Friend, Caregiver, Advocate, & Power of Attorney)
rockenhaus.com

[Location = Milan FCI]

EVIDENCE ATTACHED:

IMMINENT SEIZURE RISK: FDA Label warns Olanzapine lowers seizure threshold. Prescribing this to an epileptic while denying anti-seizure meds creates a foreseeable risk of SUDEP/Death.
TBI NEUROTOXICITY: Dopamine antagonists inhibit neural recovery in TBI patients, violating AAN Guidelines.
CHEMICAL RESTRAINT: This violates 28 CFR § 549.43 and VA/DoD PTSD Guidelines. It is illicit behavioral control, not treatment. Staff are ignoring federal VA adjudications to endanger a patient's life.

—--------

FCI MILAN - MEDICAL LIABILITY - IMMEDIATE ACTION DEMAND:
I am writing to formally contest the "discharge plan" communicated to inmate Conrad Rockenhaus (Reg. No. 39400-480) regarding his urgent medical needs.

Mr. Rockenhaus has been informed by Health Services that his urgent referral to a Urologist for his Traumatic Brain Injury (TBI) and seizure complications will be "coordinated" for after his release in 39 days.

This constitutes Deliberate Indifference under the Eighth Amendment.

Admission of Need: By arranging the referral, BOP staff have admitted the medical necessity of the specialist treatment.

Illegal Delay: Forcing a patient with active seizures and TBI complications to wait 39 days for critical care solely for administrative convenience or cost-saving is a violation of Estelle v. Gamble.

Imminent Danger: Every day of delay increases the risk of permanent neurological damage or SUDEP (Sudden Unexpected Death in Epilepsy).

DEMAND FOR CURE: I demand Mr. Rockenhaus be transported to the Ann Arbor VA this instant, for this consult. "Running out the clock" is not medical care; it is malpractice and pre-meditated murder to silence a witness against your continued crimes.

Subject: Reply - Staff Misconduct - Unconstitutional Delay of Care (39-Day Wait) - Rockenhaus 39400-480

To Warden Rardin, U.S. Attorney Gorgon, and the Office of the Inspector General:

Please see the forwarded confirmation below. This serves as ACTUAL NOTICE that the Bureau of Prisons is currently engaging in a deliberate unconstitutional delay of medical care regarding Conrad Rockenhaus (Reg. No. 39400-480).

The Violation: As documented in the attached correspondence, BOP Health Services has admitted that Mr. Rockenhaus requires a referral to a Urologist for his Traumatic Brain Injury (TBI) and seizure complications. However, staff have informed him that this consult will be delayed until after his release (39 days from now).

Legal Notice: Under Estelle v. Gamble and clearly established Eighth Amendment jurisprudence, delaying necessary medical treatment for non-medical reasons (such as administrative convenience, cost-saving, or impending release) constitutes Deliberate Indifference.

You are forcing a patient with documented, untreated seizures to "wait out the clock." If Mr. Rockenhaus suffers a medical emergency, permanent injury, or SUDEP (Sudden Unexpected Death in Epilepsy) during these 39 days, this email serves as irrefutable proof that you were:

Aware of the medical necessity (by virtue of the referral).

Aware of the delay.

Complicit in the refusal to transport him to the Ann Arbor VA.

Demand for Cure: We demand immediate transport to the Ann Arbor VA Medical Center for his urology and neurology consults. You cannot "discharge" your constitutional duty of care before you discharge the prisoner.

Subject: LITIGATION NOTICE: PRESERVATION OF EVIDENCE & NOTICE OF MISCONDUCT

To the Executive Leadership:

This correspondence serves as a formal Litigation Hold and Notice of Civil Rights Violation regarding your employee, Emma Parsons (Executive Financial Leader).

The Allegation:

Ms. Parsons has been positively identified by multiple independent witnesses as being physically present at the U.S. District Court for the Eastern District of Michigan (Detroit) on October 7, 14, and 17, 2025.

During these dates, which correspond to standard business hours, Ms. Parsons was observed in the gallery participating in the unauthorized surveillance and intimidation of an innocent disabled veteran and federal whistleblower, Conrad Rockenhaus, in concert with known intelligence contractors.

Conflict of Interest & Reputational Risk:
As an organization dedicated to serving the military and veteran banking community, AMBA relies on public trust. It is profoundly unethical, and potentially legally actionable, for an AMBA Executive to utilize professional time or resources to travel across state lines for the purpose of monitoring a targeted prosecution against a targeted, disabled veteran.

Demand for Preservation:
You are hereby placed on notice to immediately halt any auto-deletion policies and preserve the following records for Emma Parsons:
1. Time & Attendance Logs: Records verifying whether Ms. Parsons claimed to be "working" for AMBA on Oct 7, 14, and 17, 2025.
2. Expense Reports: Any reimbursement requests for travel, lodging, or per diem in the Detroit, MI area during October 2025.
3. Communications: All emails, Signal logs, or texts on AMBA-issued devices referencing "Conrad Rockenhaus," "Scott Wilson," "Detroit," or "NRO."

Legal Warning: We have sworn witness testimony placing Ms. Parsons in the courtroom. If AMBA fails to preserve these internal records, we will seek an adverse inference instruction for Spoliation of Evidence in forthcoming civil litigation under Bivens and 42 U.S.C. § 1983.

Please confirm receipt of this notice immediately.

Adrienne Rockenhaus (Spouse, Caregiver, Next Friend, Advocate, and Power of Attorney for Conrad Rockenhaus, Veteran)

EVIDENCE ATTACHED:
IMMINENT SEIZURE RISK: FDA Label warns Olanzapine lowers seizure threshold. Prescribing this to an epileptic while denying anti-seizure meds creates a foreseeable risk of SUDEP/Death.

TBI NEUROTOXICITY: Dopamine antagonists inhibit neural recovery in TBI patients, violating AAN Guidelines.

CHEMICAL RESTRAINT: This violates 28 CFR § 549.43 and VA/DoD PTSD Guidelines. It is illicit behavioral control, not treatment. Staff are ignoring federal VA adjudications to endanger a patient's life.
